VI. Open Student Forum I

VII. The President's Report

President Hernandez: Please do your reports. Don't make Vice President Uqaily send angry emails for the last report. President Hernandez, Vice President Uqaily, Chief of Staff Coiner, and Chief of Staff Flower are working on a Board of Governors presentation about the year and wrapping up. Sorry, no quote for today, was focused on a biochem test.

VIII. Assembly Reports

College Senator Dozier: Please fill out the exec application if you are interested in that next year. If you are in any group chats, student organizations, or know somebody please push that application there as well so there can be a lot of new faces and a good time next year. Secondly, College Senator Dozier will be sending an email out about this, but if you go into the Drive, there's a folder for transition documents. She individually made each person a transition document so navigate to the folder depending on if you are an exec, a college senator, or a regular senator and please fill those out. It makes it so much easier for the new senators since they are going to have a pretty new assembly and won't be redoing initiatives or doing double work. Lastly, please grab an Insomnia cookie from the back.

College Senator Oursler: For the native plants, they have ordered 2,000 pots which will be here next week and will start getting planted for Roads and Grounds. Additionally, College Senator Oursler met with Dean Donahue today during their Student Advisory Board meeting and they had some pretty cool conversations regarding the career closet that the Advisory Board has been working on. Wanted to update you all that as part of the Davis College's Day of Giving, they received close to \$1,500 to start a career closet focused on professional clothes for specific majors, such as waders and binoculars, so that they don't have to buy that out of pocket and only use it for one class, since waders are really expensive. There have also been some pretty cool conversations around using university farms as more of a resource for students within the Davis College and as a source of income through pollinator fields and collecting seeds and selling them.

Senator Santmyer: If you are interested in the Eberly Student Advisory Board, the application is open. Please help to get that pushed out. It's been sent to everyone in Eberly.

IX. Committee Reports

Senator Volk: Reporting on behalf of the Community Engagement Committee and College Senator Wooten. The Community Engagement Committee is planning a book wrapping party event with the Appalachian Prison Book Project at 6pm on Thursday, April 13th in the Mountaineer Room in the Mountainlair. Come and join them; everyone is invited even if you are not a member of the committee, and they would love to have some help.

Senator Santmyer: Danielle Long in the DEI Office has already begun working on a video for faculty as an overview of the accommodation process in faculty DEI training. Faculty who have an offense will be given a different video. They are working on a script for the video with the Accessibility Advisory Board. Additionally, there will be no more committee meetings for the Inclusion Committee.

Senator Price: There will be no more Student Experience Committee meetings for this administration, but there will still be a document with suggestions for the committees next year that cover student experience. Also still working with Transportation on putting together a survey on the MountainLine bus drop-off locations and routes, so be on the lookout for that.

X. Executive Reports

Legislative Affairs Liaison Dowler: Tomorrow at 6pm at the Hotel Morgan, there will be a discussion with the candidates for City Council. Early voting begins and goes until April 22nd, with April 25th being the actual voting day if you are registered to vote in Morgantown. You can vote for all wards, it doesn't matter which ward specifically you are in.

Trump was officially indicted with 34 counts of falsifying business records. These are all felony charges. Next begins a lengthy process; it seems like trials will begin in January 2024 or even as late as spring 2024. If you have any questions about exactly what is happening, feel free to reach out and Legislative Affairs Liaison Dowler would be more than happy to talk about it.

Chief of Staff Coiner: Please turn in your superlative form for brunch asap.
